

Master Toko Online [dot] com

Cara mengisikan produk-produk yang ingin Anda jual ke dalam website toko online Anda untuk mendapatkan tampilan yang profesional seperti pada contoh demo toko online kami akan sangat mudah sekali, berikut adalah langkah-langkahnya.

1. Login ke menu back end Administrasi toko online Anda, misalnya

<http://www.namatokoanda.com/admin>, masukkan username, password, dan kode validasi.

Password

Masukkan kode validasi di atas

Remember Me

[Lupa password ?](#)

2. Masuk ke menu e-Commerce, sub-menu Groups

“Langkah pertama yang harus Anda lakukan sebagai pemilik toko adalah membagi atau mengelompokkan semua produk yang Anda jual ke dalam Groups berdasarkan kategori tertentu.”

Dalam contoh ini misalnya kita ingin menjual **Laptop** merk **Lenovo** tipe **ThinkPad X61 Tablet**, dan juga kita ingin membuatnya dalam menu bertingkat yaitu **Laptop** → **Lenovo**.

Langkah membuat parent group bernama **Laptop**.

The screenshot shows the 'ADMIN PAGE' with a sidebar on the left containing 'Front Page', 'Write', 'Manage', 'e-Commerce', and 'Profile'. The main content area is titled 'Groups' and includes a navigation menu with 'Sales', 'Products', 'Groups', 'Variations', 'Marketing', 'Payment Options', 'Checkout Options', and 'Settings'. A welcome message 'Selamat Datang owner! | Log Out' is in the top right. Below the navigation is a table with columns 'Image', 'Name', and 'Edit', and a link 'Add New Item »'. To the right is the 'Add Details' form for the 'Categories' group. The form includes a 'Name' field with 'Laptop' entered, a 'Description' text area, a 'Category Parent' dropdown menu set to 'Select Parent', an 'Image' field with a 'Browse...' button, and 'Height' and 'Width' fields both set to '35'. An 'Add' button is at the bottom.

Administration Page by MasterTokoOnline

Selanjutnya membuat group **Lenovo** agar terletak di bawah group **Laptop**.

This screenshot shows the 'Add Details' form for a new item named 'Lenovo'. The 'Name' field contains 'Lenovo'. The 'Category Parent' dropdown menu is now set to 'Laptop', indicating that 'Lenovo' is being created as a sub-group under 'Laptop'. The 'Description' field is empty. The 'Image' field has a 'Browse...' button. The 'Height' and 'Width' fields are both set to '35'. An 'Add' button is at the bottom. In the background, the table from the previous screenshot is visible, showing the 'Laptop' item.

Dan inilah hasilnya :

The final result shows the 'Add New Item »' link and a table with two items: 'Laptop' and 'Lenovo'. Each item has a 'no image' placeholder and an 'Edit' link. The 'Lenovo' item is indented under the 'Laptop' item, representing a hierarchical structure.

3. Selanjutnya masuk ke menu e-Commerce, sub-menu Products

Masukkan data-data mengenai produk **Lenovo ThinkPad X61 Tablet**.
